### 2010 Census Data: NHPIs and Age

This table was generated with data from the 2010 U.S. Census. It shows where NHPIs of different age groups are located throughout the United States. Note the distinction between those who marked their race/ethnicity as exclusively NHPI and those who indicated that they are NHPI as well as some other race. The former is shown on the left half of the table, and the combination of these groups is shown on the right.

| Total NHPIs | Median Age | Under 18 | 18 to 64 | 65 and Above | Total NHPIs | Median Age | Under 18 | 18 to 64 | 65 and Above |
|-------------|------------|----------|----------|--------------|-------------|------------|----------|----------|--------------|-------------|实在是说不清楚 |}
