## Native Hawaiian and Pacific Islander Envision the Future Goals and Strategies 2012

<table>
<thead>
<tr>
<th>NPA Goal</th>
<th>Summary of NHPI Stakeholder Recommendation</th>
<th>Proposed Strategy</th>
</tr>
</thead>
</table>
| **1. Awareness** | **Recommendation 1: Communication and Collaboration** Develop mechanisms to facilitate effective collaboration, disseminate evidence-based information, and create a repository for NHPI data and evidence-based findings. | **NHPI Envision the Future Steering Committee** • Form a steering committee to provide advice, guidance and oversight on implementation of the recommendations derived from the 2012 NHPI Envision the Future conference.  
**NHPI Envision the Future Web Portal** • Adapt “Envision the Future” conference website to disseminate evidence-based NHPI health disparities and support stakeholder input and comments.  
• Offer webinars and conduct group meetings.  
• Communicate inventory of translated health information, results from the PIHS, education and funding opportunities, and updates on Envision the Future Steering Committee efforts.  
**NHPI.Network** • Expand NHPI.Network@umich.edu to include NHPI stakeholders across the continent, HI, USAPI and the Pacific, as well as federal, state, philanthropic and professional organization leaders.  
• Develop database of NHPI community-based and faith-based organizations, leaders, professionals, advocates, media specialists, students, community members and partnerships on the continent, HI, USAPIs and independent Pacific.  
**UM ISR-ICPSR Minority Data Archive** • Prepare inventory of NHPI datasets in the Interuniversity Consortium Political and Social Research (ICPSR) Resource Center for Minority Data for public use.  
• Develop and maintain database of NHPI culturally relevant resources and information for public access via the NHPI web portal.  
**Customize Communication for Insular Areas** • Develop culturally relevant information and customize messages to effectively communicate with USAPI communities.  
• Partner with USAPI experts and community leaders to identify, develop and disseminate meaningful information.  
• Tailor web portal content to allow community leaders to independently access and disseminate the culturally relevant information. |

### 2. LEADERSHIP

**RECOMMENDATION 2: COMMUNITY CAPACITY-BUILDING AND SUSTAINABILITY**

Increase community participation in research, interventions, and grant development, thus promoting the ability of NHPIs to advocate for themselves and promote long-term sustainability.

**SUSTAINABILITY**
- Promote sustainable leadership and the self-determination of NHPIs through a coordinated effort among community leaders, stakeholders and partnerships to independently manage community empowerment activities.

**PARTNERSHIP BUILDING**
- Collaborate with community partners to translate evidence-based information into meaningful products and culturally relevant interventions.
- Build community capacity and infrastructure to effectively create community interventions.

**GRANT OPPORTUNITIES**
- Identify, disseminate and facilitate funding opportunities for health prevention and intervention in NHPI communities in the US and USAPIs.
- Provide grant writing workshops/webinars for NHPI community organizations.
- Connect NHPI community organizations to grant writing and other capacity building opportunities.

### 3. HEALTH SYSTEM AND LIFE EXPERIENCE

**RECOMMENDATION 3: HEALTH ADVOCACY AND ACCESS**

Increase NHPI leadership in health advocacy and develop culturally informed health interventions.

**SOCIAL NETWORKING AND VIDEO/AUDIO COMMUNICATION**
- Develop culturally appropriate video messages on health issues and healthy behaviors across the life-course.

**HEALTH NAVIGATION AND DELIVERY**
- Develop culturally relevant materials for health practitioners and providers.

**HEALTH ADVOCACY**
- Promote NHPI leadership in national advisory committees.
- Increase participation of community leaders in professional meetings.

<thead>
<tr>
<th>RECOMMENDATION 4: PI MIGRANT AND IMMIGRANT HEALTH</th>
<th>COMPACT ASSOCIATION OF FREE ASSOCIATION STATES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Promote the health of NHPIs through policy and changes to the health system infrastructure.</td>
<td></td>
</tr>
</tbody>
</table>
• Examine the implication of Medicaid program and ACA Health Insurance Exchange Program on COFA migrants. |

| ELECTRONIC RECORD SYSTEM | |
|--------------------------| |
|  
• Leverage support for the application of electronic health record system between the USAPIs and US. | |

<table>
<thead>
<tr>
<th>4. CULTURAL AND LINGUISTIC COMPETENCY</th>
<th>LANGUAGE-ASSISTANCE GUIDES AND TRANSLATORS</th>
</tr>
</thead>
<tbody>
<tr>
<td>RECOMMENDATION 5: TRANSLATION SERVICES</td>
<td></td>
</tr>
</tbody>
</table>
• Develop language assistance guides on relevant health prevention topics.  
• Develop a database of PI interpreters and translators. |

| COMMUNITY EMPOWERMENT |  
• Develop protocol for communicating/sharing NHPI advocacy efforts.  
• Develop useful health education and prevention information in select PI languages and disseminate information on NHPI web portal and ethnic media.  
• Develop culturally relevant resources for dissemination at local health clinics and community health centers serving the NHPI community.  
• Conduct webinars on evidence-based findings. | |

<table>
<thead>
<tr>
<th>RECOMMENDATION 6: INCREASE NHPI HEALTH PROFESSIONALS AND WORKFORCE DEVELOPMENT</th>
<th>YOUTH LEADERSHIP AND HEALTH TRAINING</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disseminate training and financial opportunities for NHPIs to increase participation in health workforce.</td>
<td></td>
</tr>
</tbody>
</table>
• Develop NHPI Professional mentoring program in support of PI youth higher education.  
• Compile a comprehensive list of scholarship opportunities for higher education in health professions.  
• Report nationwide scholarship opportunities for higher education. |

| RESEARCH WORKFORCE DEVELOPMENT |  
• Identify training and mentoring opportunities in research.  
• Identify funding opportunities for research. | |
<table>
<thead>
<tr>
<th>RECOMMENDATION 7: HEALTH DISPARITIES</th>
<th>TRANSLATIONAL RESEARCH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Develop culturally relevant interventions and preventions to eliminate disparities from the PIHS findings.</td>
<td>• Analyze PIHS and prepare manuscripts, community products, as well as, culturally relevant preventions and interventions to address NHPI health disparities.</td>
</tr>
</tbody>
</table>
